Instruction: Complete the skip counting by 5s.

A caterpillar-shaped skip counting activity. The caterpillar's body is composed of several circles. The head is a larger circle with a smiling face and two antennae. The body circles are arranged in a slightly curved line. The numbers 10, 35, 50, and 65 are placed in some of the circles, while others are empty for the student to fill in. The sequence of numbers is 10, 35, 50, 65, which are not strictly in order of increasing value but follow a specific pattern for the activity.

10

35

50

65
